VOTED: that the said Fee of \$25.00 for said request be returned to Ronald Campbell (Son)

Chairman St. Maurice then read aloud Registered Letter as received from Mr. & Mrs. Roland A. Chenard, dated May 29, 1961. (Mrs. Chenard, who was present at this time finished reading part of said letter). Mr. Banks told Mrs. Chenard also Mr. Chenard and Mr. & Mrs. William G. Salmon, that the Board wished first to confer with the Town Counsel before making any decision.

- Nest, Chairman St. Maurice stated that he wished to read aloud to the Board his opinions in regards to the Salmon-Binder situation and that he wished said opinions to be recorded in the Minutes of this Meeting, said opinions being as follows:-

The Board of Selectmen must render its decision to the alleged charges by the complainants, Mr. & Mrs. William G. Binder, Hillside Avenue, Southboro, who contends that Mr. William G. Binder, Jr., owner of a Business and Real Estate on East Main Street, Southboro, is in violation of the Zoning By-Laws.

From the testimonies presented at the Meeting called on May 22, 1961, by the Board of Selectmen with the parties involved and interested persons concerned, and from the records and correspondence on file accessible to the Board of Selectmen the summation of the evidences and facts in this case now before the Board of Selectmen for a decision, due consideration must be given to the purpose and intent of the Zoning By-Laws. In accordance with and subject to the Zoning By-Laws, reasonable opinions are necessary and advisable to prevent permitted use of land and structures substantially derogating from the purpose of the Zoning By-Laws and Town By-Laws in general.

(1) Is the property owned by Mr. William G. Binder, Jr. ON East Main Street, which does not have the required frontage on East Main Street but does have the required frontage on Hillside Avenue?

In my opinion to grant Zoning Permits the use of East Main Street is in violation of the Zoning By-Laws. Page 12 of the Zoning By-Laws Section VI Table of regulations: Residence C

June 7, 1961

Minimum Lot frontage 100 feet.

(2) Does the lot formerly owned by Mr. William G. Salmon and now owned by Mr. William G. Binder, Jr., and the adjacent abutting lot formerly owned by Mr. Charles H. O'Malley and now owned by Mr. William G. Binder, Jr., constitute two separate and distinct lots?

Since Mr. William G. Binder, Jr., has moved out of the dwelling he owns on the lot formerly owned by the Salmon's and now resides in the dwelling he owns on the lot formerly owned by the O'Malley's and also has transferred his business office to a newly built and furnished office in the basement of his present home from which he now conducts his business.

In my opinion a violation of the Zoning By-Laws exists. Page four of the Zoning By-Laws, Section IV USE REGULATIONS: No structure or land shall hereafter be used or occupied and no structure shall hereafter be erected, maintained or altered unless in conformity with the regulations for the district in which it is located except as hereinafter provided. Again under Section IV, Item I, Paragraph (h) in Residence C the following uses are permitted: Office or studio maintained by a person resident on the premises provided that no more than two persons not regularly resident on the premises are employed at any one time. Also on page 10 of the Zoning By-Laws Section VIII ADMINISTRATION: Item I ENFORCEMENT: this By-Law shall be enforced by the Board of Selectmen as provided in Section 12 of Chapter 40A of the General Laws. Henceforth no land or structure shall be changed in use and no structure shall be erected, altered, or moved until the Board of Selectmen shall have issued a Zoning Permit certifying that the plans and intended use of land, buildings and structures are in conformity with this By-Law.

(3) The occupancy of the dwelling formerly the domicile of Mr. William G. Binder, Jr., has been recently rented to a party whose business vehicles and equipment are stored on the same premises together with the commercial vehicles, equipment and materials which are the property of Mr. William G. Binder, Jr., owner of the premises.

In my opinion this constitutes two separate and distinct ownerships of dissimilar businesses on the same lot and in my opinion is in violation of the Zoning By-Laws. Page 4 of the Zoning By-Laws, Section IV USE REGULATIONS: no structure or land shall hereafter be used or occupied and no structure shall hereafter be erected, maintained or altered unless in conformity with the regulations for the district in which it is located except as hereinafter provided. Item I in residence C the following uses are permitted. Paragraph (f) the production and sale of agricultural or horticultural products the major portion of which shall have been raised within the Town. Also on Page 10 of the Zoning By-Laws Section VII Nonconforming Uses and Item 2 Extension of Section VII. Also on Page 10 of the Zoning By-Laws Section VIII ADMINISTRATION Item I.

In my opinion changing a nonconforming use of land to the storing on residential premises of incidental equipment, materials and stock-piling of supplies in connection with a more general business involves a use different in character and purpose from the original set-up and use of the premises at the time of the adoption of the Zoning By-Laws.

(4) On August 18th, 1955, the Board of Selectmen granted permission to erect a building 30' X 60' feet in accordance with a plan for a five car garage submitted by the applicant Mr. William G. Binder, Jr.

In my opinion the granting of this permit is in violation of the Zoning by* Laws.

Page 4 of the Zoning By-Laws Section IV USE REGULATIONS: Item 2 in residence C. District the following uses are permitted if determined by the Board of Appeals to be neither detrimental nor offensive to the neighborhood: Paragraph (f) Private Garage for storage or more than three motor vehicles or more than one truck.

Instead of erecting a five car garage building as per approved plan Mr. William G. Binder, Jr., erected a dwelling for himself.

In My opinion this is in violation of the Zoning By-Laws. Page 10 of the Zoning By-Laws, Section VIII. ADMINISTRATION, Item I. ENFORCEMENT.

(5) On November 2, 1956 the Board of Selectmen in a letter to Mr. William G. Binder, Jr., owner of the premises in question, stated that the Board of Selectmen became aware of an occupied house trailer being on the premises and advised said trailer must be approved for a permit by the Board of Appeals.

Mr. William G. Binder, Jr., as of this day, has never applied or appeared before the Board of Appeals for a trailer permit.

In my opinion this is in violation of the Zoning By-Laws. Page 5 of the Zoning By-Laws, Section IV, Item 2, in Residence C District the following uses are permitted if determined by the Board of Appeals to be neither detrimental nor offensive to the neighborhood. Paragraph (h), Automotive: Type Trailer used as living or Business quarters in excess of thirty (30) days.

(6) On March 2, 1957 the Board of Selectmen on receipt of an application submitted by Mr. William G. Binder, Jr., to erect a garage 36 X 28 feet informed the applicant of the Zoning By-Laws, Section IV, Item 2 Paragraph (f) and requested Mr. William G. Binder, Jr., to go before the Board of Appeals for an approval.

Mr. William G. Binder, Jr., as of this date, has never applied or appeared before the Board of Appeals for an approval to erect said garage.

In my opinion this is in violation of the Zoning By-Laws. On Page 5 of the Zoning By-Laws Section IV USE REGULATIONS, Item 2, Paragraph (f), and also Section VII NON CONFORMING USES Item 2, EXTENSIONS.

(7) On February 8, 1961 the Board of Selectmen in a letter to Mr. William G. Binder, Jr., states that alterations were being made in his present home and had not secured a permit. The Board of Selectmen informed Mr. William G. Binder, Jr., a permit is required and should apply for one immediately.

As to this date no application has been submitted to the Board of Selectmen.

In my opinion this is in violation of the Zoning By-Laws and the Building Codes Regulation.

June 7, 1961

(8) The installation of a gasoline dispensing pump and storage gasoline tank on the property of Mr. William G. Binder, Jr., has been for sometime and is presently used in connection with his business without a permit

In my opinion this is in violation of the State and Town Laws.

(9) From the time of the adoption of the Zoning By-Laws of the Town of Southboro the changing of a makeshift set of arrangements for the parking and the base of business operations of a given number of commercial vehicles to a more elaborate fixed facilities and expanded use of land area for storage of additional equipment in connection with more complicated vehicles is considered to be a change in and enlargement of the business property making it different in its effect upon the neighborhood zoned for Residential Use.

duty

In my opinion Mr. William G. Binder, Jr., owner of a contracting business and two parcels of real estate property abutting each other on Hillside Avenue, Southboro, has failed in numerous cases to conform with the Regulation of the Zoning By-Laws of the Town. There is no excuse for gross negligence of Town By-Laws. I feel certain Mr. William G. Binder, Jr., is consciously aware that the townspeople at Town Meetings voting into law the Zoning By-Laws and additional laws and regulations. It is the duty and responsibility of the Town Officials to be cognizant of the intent and purpose of the Zoning By-Laws and in accordance with and subject to the Zoning By-Laws enforce its regulations and give reasonable opinions to prevent permitted use of land and structures substantially derogating from the purpose of the Zoning By-Laws,

In my opinion Mr. & Mrs. William G. Binder, Jr., are to take immediate actions in such procedures that will justify reasonable compliance to the intent and purpose of the Zoning By-Laws of the Town of Southboro.

I suggest that Mr. & Mrs. William G. Binder, Jr., appear before the Board of Selectmen in the near future to report and discuss the entire matter of adjusting the problems.

Speaking as one member of the Board of Selectmen, I am

Arthur J. St. Maurice

Mr. Howes then told the Board that before any decision could be made, all matters should be delved into very carefully, Mr. Howes told the Board that "you can't tell anyone he can't use a Right-of-Way". Various other matters and phases of this case, Mr. Howes discussed with the Board, viz: Payroll records of Mr. Binder's, records as kept by the Board of Assessors, relative

to registrations of trucks, etc., when Mr. Binder first used the Salmon property, what equipment used, these and other matters, according to Mr. Howes, have to be determined. Mr. Howes continued that it is quite apparent they are "going to do something about it" (meaning violation), that if this is so you (Board) will want to show their lawyer all the facts, that after seeing same, their lawyer may well feel he could not possibly win the case and would drop same, that if the Board does not consider all these things, "you will have a lawsuit", and proper preparation will not have been made. It was agreed by both Board members to give a decision on this case at the next Board meeting & June 21, 1961.

8:00 P.M. Then appeared Town Counsel, Alfred W. Howes.

Chief Mattioli then was questioned as to why he took Mr. & Mrs. Curtiss, after their recent wedding, in the cruiser. The Chief stated it was a matter of safety, that he just took the couple to their own car on Sears Road. Selectman Sawin feels that because of this matter, a precedent has been set.

Chief Mattioli then reported that he expected the new cruiser in, either this "Monday or possibly Tuesday", "Town should be thinking about getting a Bay Station", stated the Chief.

Mayor Kuson J. Haddad, who was present at this time, told the Board that Marlboro wants the Town of Southboro to do something about this matter, (getting a Bay Station of its own).

8:09 P.M. The following persons appeared at this time relative to the Salmon-Binder matter, and all met in the Lower Town Hall, since there was not sufficient room in the Selectmen's office to hold this meeting:-

1. Kuson J. Haddad, Attorney for Mr. & Mrs. William G. Salmon
2. Mr. & Mrs. William G. Binder, Hillside Avenue.
3. Mr. & Mrs. William G. Salmon, Hillside Avenue.
4. Mr. & Mrs. Preston C. Brown, East Main Street.
5. Mr. & Mrs. Thomas J. Reilly, East Main Street.
6. Mr. & Mrs. Roland A. Chenard, East Main Street.
7. Mr. & Mrs. Francis W. Lapine, East Main Street.
8. Mr. Scott M. Ferguson, East Main Street.
9. Mr. John J. Falconi, Clerk to Board of Appeals.

Chairman St. Maurice told all present that he was turning this meeting over to Mr. Howes.

Mr. Howes stated, "first I heard about this" (meaning conducting this meeting).

Mr. Howes told all present about certain facts as found by him and which he stated in writing in his "Memorandum".

Mr. Howes explained that this meeting was to give the parties concerned a chance to present further facts to the Selectmen in order to help them make a decision in reference to the alleged violation of the Town's Zoning By-Laws by the Binders, as claimed by Mr. & Mrs. Salmon. Mr. Howes reviewed with all persons present, the meeting held on May 22, 1961, concerning said alleged violation, and also told all present of his findings as stated in his "Memorandum" to the Board.

Attorney, Kuson J. Haddad told all present that he was representing Mr. & Mrs. William G. Salmon in this matter as well as representing others in the neighborhood of East Main Street and Hillside Avenue.

He stated that since it is believed that the Zoning By-Laws went into effect in March 7, 1955, he (Binder) is in violation, that said possession was taken after "Zoning By-Laws took effect". Mr. Haddad further stated as brought out by Mr. John Hill at the meeting of May 22, 1961, that in 1954 the land in question was all woods. It was brought out that, prior to October 6, 1955, there was no electricity used on this piece of land, that a "meter" had been connected on aforementioned said October 6, 1955.

Attorney Haddad continued that testimony was brought out that there was no buildings on the Binder property prior to the "passing of the Zoning By-Laws. Mr. Haddad mentioned the lack of information which could be obtained from the Assessor's records concerning personal property of Mr. Binder. He brought out that no permit had been granted said Binder until 1956, for construction. He brought out the use of gas pumps which is violation of the "regulations of the Town of Southboro". (The above mentioned as brought out by Mr. Haddad, was the result of his interpretation of part of the "Memorandum" as sent Mr. Salmon, concerning facts as found by Mr. Howes).

Mr. Howes explained to Mr. Haddad that he prepared the "Memorandum" at the request of the Selectmen concerning the facts as he saw them, from the notes he had, that it is up to the Selectmen to determine whether or not there was a non-conforming use before 1955, March 7th. Mr. Howes reminded Mr. Haddad that the Board of Selectmen has to decide the question as to what the difference is between the use of the land in 1955 and its use today.

Mr. Haddad contended that he was very doubtful that any business could be done on the property in question, in the winter of 1955. Mr. Haddad also stated that he doubted very much if anybody could use the land, that he doubted anyone would allow another to use his land without receiving benefit from it, that if this area was a wooded area business could not be operated out of it.

Mr. Francis Lapine asked, "Hasn't the Board of Selectmen access to all the facts--enforcement shall be made by the Board of Selectmen--burden of proof falls on the Board of Selectmen--Board of Selectmen has access to all the facts?"

Mr. Howes told all present that this meeting was an attempt to bring out all the facts available out, and to correct any misstatements which might have been made.

Mr. Lapine asked, "have the Board of Selectmen any facts?"

Mr. Howes: "For instance, some of the equipment that Mr. Binder has would be listed as personal property--the Board of Assessors have absolutely nothing to indicate there was".

Mr. Lapine: "Everything that goes over the road has to be registered".

(Here Attorney Haddad repeated those pieces of equipment, which Mr. Binder owned in 1954, and which were listed with the Board of Assessors, as stated in Mr. Howes' Memo to the Board of Selectmen, copies of which were sent both Mr. Binder and Mr. Salmon, and being as follows:-

July 5, 1961

Dodge Dump Truck, Chevrolet Dump Truck, Tank Truck (Studebaker).

It was brought out that in 1954-55 "nothing on that property--went from nothing on one acre of land to garage, trailer and house by 1959".

Mr. Salmon stated that Mr. Binder lived on Sears Road in January 1, 1956.

Mr. Haddad brought out the fact that a person's business is indicated in a telephone directory, which also gives address. Mr. Howes checked the telephone company relative to finding out where Mr. Binder's telephone was listed (address) in 1958.

At about 8:45 P.M., Mr. Howes asked all present if anybody else could produce further facts relating to this matter.

Mr. Haddad again reviewed certain facts as brought out at meeting of May 22, 1961, such as the premises could not have been used for business since it was a wooded area and had to be surveyed first and cleared. It was Mr. Haddad's contention that "Mr. Binder did not occupy or use the land prior to the Zoning By-Laws". Mr. Haddad further stated, "we deny that he (Binder) ever was in possession of the property prior to the Zoning By-Laws, we are denying that he ever used it as a business prior to their taking effect, and if used it after the Zoning By-Laws took effect, he is in violation--he did not apply for building permit--Gas permit"-----

Mr. Howes: "What about facts?"

Mr. Haddad: "Some of these facts I will go along with".

Mr. Howes: "Is it right for me to say you deny the truth of any facts set forth anywhere at any time as to the rest of it?" Do you agree that they are substantially true?"

Mr. Haddad: "That is true". "We can't deny house, shed, truck, because we have all seen them there".

Mr. Howes to Mr. Binder: "Basically everything is quite true other than there was a mix-up in the number of trucks in 1961, which is due to trade in?"

Mr. Howes: "Do you agree that house trailer-----"

Mr. Binder: "In a sense, I explained in first meeting and that was the reason for which we used that land, opened up the wall and cut the wood".

Mr. Howes to Mr. Binder: "You agree that this thing is substantially true as far as the date you went in there was concerned, date title passed date started doing business and other equipment that is classified as personal property in 1961. You agree all facts set forth except two (2) pieces of equipment cancelled and turned in, so that this is list of vehicles in 1961. Anything else that you claim is wrong?" (If there were any answers to these questions, Clerk did not hear them).

Mr. Binder: "We had to have a place to keep our equipment--reason we purchased land--we came to an agreement with Mr. Salmon in December, 1954--". (Mr. Binder was interrupted here).

Mr. Salmon: "It's a lie".

Mr. Binder: "I think Al (Mr. Binder here addressed Mr. Howes) probably if you look back, it was about that time I got hold of you to pass papers".

Mr. Howes: "I don't represent you, I don't represent anybody, not even the Town in this matter".

Mr. Binder explained again how he had to get his deed, that he bought the land and cleared the lower end of lot in order to place trailer on it, that he had prepared a place for the trailer "that winter". Mr. Binder continued by stating "I think things as you have drawn up is fairly stated".

At this time Mr. Howes' "Memorandum" to the Selectmen, as well as Mr. Binder and Mr. Salmon, was read by some of the other parties attending this meeting.

Mr. Brown, Mr. & Mrs. Lapine questioned Mr. Howes that since he is Town Counsel, why wasn't he representing the Town in this matter? Mr. Howes explained that he was simply conducting the meeting, since being asked by the Chairman of the Board, that up to this time he(Howes) had not given any advice to the Board of Selectmen or consulted with them, in his capacity as Town Counsel concerning this matter.

Mr. Binder told those present that he had four (4) dump trucks consisting of:-

'57 Ford, '51 Dodge, '48 Studebaker, '51 Reo.

Mr. Binder stated: "I junked Dodge--we took dump body off--we did put the digger on the '48 Studebaker--1961 was never registered because I traded".

Mr. Howes: "There were two (2) of these vehicles you didn't have-----

Mr. Howes than explained again the number of trucks as listed.

Mr. Haddad stated that Mr. Binder may have had this but not our of Hillside Avenue.

Mr. Truesdale again brought up. Mr. Haddad stated that they (Mr. & Mrs. Salmon) deny that Mr. Truesdale just leaves his truck on the premises, that they feel that Mr. Truesdale does business. Mr. Haddad continued by stating they deny it is just used for transportation (the truck) that he (Truesdale) is doing business outside of Hillside Avenue.

Mr. Howes stated that he found out "he has no other car".

Mr. Salmon to Mr. Binder: "How did you get hold of him?"

Mr. Binder: "I think someone takes his calls".

Mrs. Chenard interrupted here stating "he (Binder) wasn't plowing snow out of Hillside Avenue".

Mr. Howes then explained the duty of the Selectmen relative to the enforcement of the Zoning By-Laws, that it is the Selectmen's duty to make a decision in this matter, that he (Howes) had about 40 years experience in matters of this kind that to conduct a hearing or meeting is no part of his duty as Town Counsel, and that his (Howes) appearance is absolutely neutral..

Mr. Howes explained to all present that the reason they were here tonight was to correct any misstatements and to give anyone a further chance to bring out, if any, more facts relative to this matter.

Chairman St. Maurice to Mr. Binder: "Have you used East Main Street as your address?"

Mr. Binder: "Yes".

Chairman St. Maurice: "You would have access to Hillside Avenue-----"

Mr. Binder: "You could-----"

Chairman St. Maurice: "True address to the Town would be Hillside Avenue?"

Mr. Binder: "No".

Here Chairman St. Maurice asked Mr. Binder if he owned a strip of land west of his present premises formerly owned by Mr. O'Malley, and which

July 5, 1961

extends to Hillside Avenue. Mr. Binder stated he did. Chairman St. Maurice then stated that "Plan refers to Hillside Avenue because you did own to Hillside Avenue".

It was brought out that Mr. Binder's present property does abut Hillside Avenue. Use of telephone on Mr. Binder's property (formerly O'Malley) questioned. Chairman St. Maurice showed a plan as submitted by Mr. Binder, in 1955 for approval for a "5-car garage 30X60".

Mr. Binder denied that this was correct.

Chairman St. Maurice showed plan to Mr. Binder who stated that the words "5-car" were not inserted on this plan by him, that words were not his writing. "Some one wrote that "5-car" there.

Chairman St. Maurice then gave a resume of what transpired relative to the above-mentioned garage and asked Mr. Binder if he went to the Board of Appeals. Mr. Binder said "No", "I want to go on record that we did not build that garage".

Chairman St. Maurice: "1955, it was stated there was no buildings whatsoever in the Winter of 1955".

Mr. Binder: "It was stated there was one (1)". "We conducted the same business as we had in 1955".

Mr. Salmon: "There was no building 1954 or the Winter and Spring of 1955".

Mr. Binder: "1955, I had a little shed".

Mr. Salmon: "All of a sudden it was there and that is the-----

Mr. Binder: "That was put up 1954-1955, we had trouble with thefts".

Mr. Howes: "Before you had a deed to the property?"

Mr. Binder: "Yes".

Mr. Salmon: "That was a heavily wooded lot, you couldn't build anything in the Winter".

Mr. Howes: "Do you deny it was-----is there any dispute that this was a heavily-wooded lot?"

Mr. Binder: "It certainly was when we bought it".

Chairman St. Maurice: "How long were vehicles registered on East Main Street?"

Mr. Salmon: "He (meaning Mr. Binder) lived on Sears Road in 1956".

Mr. Binder: "I never lived on Sears Road in my life".

Chairman St. Maurice, reviewed property 1955.

Mr. Haddad: "There was no electricity on that property until October 5, 1955".

Mr. Sawin: "I will agree to that".

Mr. Haddad: "Couln't be operated out of there before summer of 1955".

(Mr. Howes at one time during this hearing stated that he had one time represented both Mr. Binder and Mr. Salmon).

Mr. Banks stated to Mr. Howes that a "few minutes ago" he (Banks) had heard Mr. Howes say he had confidential records of both Mr. Binder and Mr. Salmon, relative to the passing of papers for the transfer of the deed and that he (Howes) would not divulge any of same unless both Mr. Binder and Mr. Salmon agreed--if they would agree (meaning to have this matter about the passing of papers for the transfer of the deed, etc., made public).

Mr. Howes stated that as far as he was concerned, between Mr. Binder and Mr. Salmon, that if they (Binder and Salmon) requests him (Howes) to disclose whatever information he (Howes) has in his (Howes') files, that said request be made in writing, that such disclosures would not be made by him (Howes) under "no other circumstances".

Mr. Brown questioned Mr. Howes as to whether or not such records could be made public.

Mr. Howes stated that they were his "own" personal files.

Here Mr. Lapine again spoke saying he did not want to see anybody get hurt, but that he felt Mr. Binder's business had now "Quadrupled".

Mrs. Chenard stated that she felt the value of her property on East Main Street had greatly deteriorated because of the equipment which passes so near her home on side and front of same, that she is afraid of not being able to sell her home.

Mr. Howes explained that if Mr. Binder's business had a certain equipment prior to the Zoning Laws, no law could stop him (Binder) from continuing in that business "no matter who gets hurt", "he (Binder) can't expand that business, he can't increase that business--if he (Binder) does, the Selectmen have no alternative but to stop him".

Mr. Brown asked Mr. Binder if he could use Hillside, since he has access to same.

Mr. Binder answered that it might constitute a change in his operation.

Mr. Salmon stated that he didn't see how that had anything to do with it.

Mr. Howes: "If he is in violation, he is in violation".

Mrs. Salmon stated that she believed there was sufficient proof that Mr. Binder is in violation of the Zoning Laws.

Chairman St. Maurice stated that, at the Meeting of May 22, 1961, the parties concerned were told a decision would be forthcoming in two (2) weeks, that the Board discussed this matter with the Town Counsel (concerning time element for decision) and it was felt that a final meeting would be held in order to give further opportunity for said parties, if they had legal counsel, and that after same it would then be up to the Board to make its decision. Chairman St. Maurice told all present that said parties concerned would be sent a report, (meaning Mr. Binder and Mr. Salmon).

Meeting on Binder-Salmon matter completed at about 10:15 P.M.

The Board then returned to Selectmen's office about 10:20 P.M.

VOTED: Pending ruling of the Town Counsel, that the Highway Superintendent place on each end of Lover's Lane and Chestnut Hill Road signs reading "No trucks or busses allowed".

The Board discussed ruther the possibility of making Chestnut Hill Road and Lover's Lane a 1-Way Street. Mr. Howes stated that there was no question about the Board's right to make them one-way but that off-hand he didn't know of any law that would permit the Board to do it.

VOTED: that Petition of Massachusetts Electric Company regarding Cordaville Road, at a point approximately 1295 feet northeasterly from the Massachusetts Toll Road Overpass for 1 Pole location be released to said Company. (Hearing had been held on June 21, 1961, with no objectors at same).

VOTED: that vote of June 21, 1961, be rescinded relative to the Board's granting of a Used Car Dealer's License to Robert H. Simmons of West Newton, Mass., since it was realized that no Used Car License (Class II) had been granted since 1955, also that location for same (junction of Woodland and Cordaville Roads) is in a Residential District, and would therefore, be in violation of Zoning.

VOTED: that a letter of sympathy and condolence be sent Mr. Herbert E. Harrington on the recent death of his wife, Mrs. Ruth Harrington, long-standing member of the Board of Public Welfare.

Report from the Wire Inspector, Mr. Elwin W. Robbins, as to the completion of the Wiring of the Southborough Town Hall's being done "with full satisfaction" to said Wire Inspector, noted by Board tonight.

Zoning Laws discussed with the Town Counsel--Mr. Howes stated that in 1953, when Zoning Laws were rewritten it was said that the Town would have to have a Building Inspector, that a Permit would be required, but that the law had been changed since the Town did not have a Building Inspector. (Mr. Howes was not positive on this but stated "It was something like that".

VOTED: 1-Day Wines & Malt Beverages License be granted to F.D. Newton Veteran Firemens Association, to be drunk on the premises located on St. Mark's Field in back of Town Building presently occupied by Water Department and Tree Warden.

Selectman Sawin asked Mr. Howes if he thought Mr. Haddad would take this case any further. Mr. Howes told the Board that Mr. Binder was in violation of the Zoning Laws, in that he has increased his buisness and suggested Mr. Binder go back to where he was in 1955.

Selectman Banks again suggested trying to get certain facts from both Mr. Binder and Mr. Salmon as presently in the possession of Mr. Howes as he acted, at one time, as private counsel for both above-mentioned. Mr. Howes stated that if "you will find the facts, give me a written statement what the facts are, I will tell you the law".

Selectman Sawin told all present that the main concern of Mr. P. X. O'Connor (Post Office Real Estate Officer for the Government) was, whether or not the Town was going to widen Newton Street.

Mr. Beals, speaking for the Planning Board, stated his Board is concerned because there is no "diagonal parking" and is afraid that a "bottle neck" would be created on Newton Street and feels that it is better to have the post office where it presently is.

Selectman Banks suggested "why not push building back and have parking lot in front of building?"

Mr. Troisi stated "trucks will have to pull in there, any changes you want made we will have to take up with the proper people".

The Board then discussed the plan, as left in office tonight by Mr. Chase of the Massachusetts Electric Company, relative to the building of proposed homes on Nichols Street. (This Plan was to be given back to Mr. Chase later) It is the feeling of the Board that, if said homes are built on said Street, the Town will be required to build an "81" road. Mr. Howes, Town Counsel, reviewed his findings and the Board reviewed the findings of the Town Clerk, relative to said Nichols Street, in both instances, it could not be found that the Town had abandoned said Nichols Street. Also, that the Board discussed with the Town Counsel the possibility of using the present balance of \$365.00, as left over from the purchase of the GMC truck to help defray cost of buying the snowplow frame. Mr. Howes stated that "if they (Selectmen) use that to buy a frame on which they put a plow, I say that can't be done".

Mr. Dyer stated that he was not in favor of transferring any money from Reserve Fund to defray cost of snowplow frame.

Mr. Howes explained, in detail, that monies can be transferred from the Reserve Fund only when an emergency exists, and cited a case whereby a similar situation existed for monies to be paid for plowing snow, and the

Mr. Waite explained that approximately "six" cars now go to the present post office. Mr. Ledwith stated "the bigger the post office, the less people go to the post office because you have letter carriers".

The Boards pointed out to the Post Office people that "we would like service facilities, we would like the elimination of the Framingham RFD, we are not criticizing the building (Post Office)."

Selectman Banks brought out the fact that large trailer trucks from Hygrade Foods come down Newton Street, and also brought out the fact that he noticed according to the plan, that there was forty-eight (48) feet from the back of proposed post office to back street (Lyman).

Mr. O'Connor agreed that there should be room for cars to pull in off Newton Street, in order to park same.

Egress on Lyman Street considered by the Board. Mr. O'Connor stated that the contractors are working on the plans now, that binding contracts were signed and agreements, on July 12, 1961, that the contractor has "180" days to "give us a completed building".

Selectman Sawin stated the number one concern was "land size". Mr. Ledwith stated, "we feel we are a straight commercial tenant".

Mr. Sawin asked, "do we have any other possibility of getting land". Mr. Ledwith, "Possibility is remote".

Refusal of the Building Permit discussed.

Mr. O'Connor: "It would be up to the Contractor whether or not he would sue."

Mr. Ledwith: "You haven't told us why".

Mr. Elton: "Because they don't like it".

Mr. Ledwith: "We have never had a contractor refused a permit". "We don't need more land."

Mr. Howes: "It does require the twenty-five feet--I sincerely wish to be recorded and give opinion, very firm, that it does require set back on the south". Mr. Howes continued, "I feel that is the Law". "In giving my opinion it (P.O. location) will not be in compliance with the Zoning Law". Mr. Howes stated specifically, "we should have twenty-five feet on the south and east sides".

Mr. Ledwith: "Is entire lot zoned for business?" Mr. Ledwith told, entire lot is zoned for business.

Mr. Howes told all present that this particular problem, as far as lot size is concerned could be solved "very easily by the Board of Appeals, who can grant a Variance". According to Mr. Howes, Section VI f, "25 feet when adjacent to a Residence District, also applies "to all Districts". According to Mr. Howes "could be adjacent to Industrial District--in such a District you require twenty-five feet".

Mr. Ledwith: "Is there anything the Post Office can do to keep you happy up here?"

Selectman Banks: "Each and every one of us come to some agreement".

Mr. Beals: "Get twenty-five feet more".

Mr. Ledwith: "You don't have any problem now--we are not going to put a "U" turn in".

Possible ramp heading south on Lyman Street discussed.

8:00 P.M. The Planning Board and the Board of Selectmen adjourned to the Office of the Planning Board to further discuss, among themselves, the afore-mentioned matters.

8:20 P.M. The above-mentioned Boards returned to the Selectmen's office at this time, and again Chairman St. Maurice turned the meeting over to Mr. Beals Clerk, of the Planning Board. (Both Messrs. O'Connor and Ledwith returned also.)

Mr. Beals: "We both, in addition suggest that it would be highly desirable if the five-foot border could be made into a twenty-five foot width rather than a 'five-footer'". "We are not asking for a "U" turn for cars". Mr. Beals stated the Boards felt that a ramp would give a better egress and looked upon same favorably.

Mr. Sawin: "Mr. Beals spoke for the feeling of the whole Board".

Post Office Authorities to check with their engineers to see what if anything, they can come up with, in reference to the above-mentioned Board's suggestions. Said authorities to contact Selectmen's office and joint meeting to be set up if agreements can be reached with Post Office Department's Engineers.

Dr. Trum stated that they hoped to procure a Permit for a Research Laboratory. Dr. Trum showed a preliminary plan of the area which would be used for said Research Center, stating that same would be "tax exempt". Dr. Trum explained that there would be eighty (80) acres of land used in Southboro, that most of the building would be divided on the Line, that the center would be for animals--small monkeys to baboons. Dr. Trum stated about one thousand (1000) monkeys and five hundred (500) dogs, that the present proposed unit would cost about \$948,000.00, that in about five (5) years they anticipate a larger unit than this at a cost of two and one-half Million (\$2,500,000.00) Dollars. Dr. Trum stated that this would be a non-profitable institution, and would employ about fifty-four technical and professional people.

Mr. McCarthy: "Why do you need this expanse of land?" Mr. McCarthy very much opposed to this proposed Research Center.

Town Counsel stated that if it is a non-profit Institution, Zoning Laws do not apply. Dr. Trum reported that Marlboro has accepted this proposal, with "the same kind of group as is here, presently, in the Selectmen's office". Dr. Trum stated that they were not asking anything of the Town, that "they would control their own land". Chairman St. Maurice told Dr. Trum he would be meeting with the Board again. The following expressed themselves thusly:

Chairman St. Maurice	100% in favor

Selectman Sawin is in favor of having some one at said Dump on Saturday and Sunday as said days are considered two biggest in the week.

She explained that her present address is only a "temporary" one that she wants to come back to Southboro and live. She stated that "five years I have been waiting to hear from the State" she stated further, "I am going to be a complete island on the other side of Route 30". She (Bushman) further stated that she was going to ask the Town to take back an "Old County Road leading up to High Street and wanted to know just what procedures to take. Mr. Sawin explained the efforts of the Board to try to remedy certain situations which this new Route will entail, that they (the Board) had talked with Mr. McCarthy, Chief Engineer.

The Board showed Mrs. Bushman plans (blueprints of Route 495) which are presently in the Selectmen's office.

Both Chairman Sawin and Selectman Banks told Mrs. Bushman they thought to open up this Old County Road would be a great expense to the Town.

Mrs. Bushman stated that she had been approached by many to sell her land, that she had been approached "by the colored church", and "by any people".

Chairman Sawin told Mrs. Bushman to get in touch with the Zoning and Planning Boards. Mrs. Bushman stated that the State was going to take approximately two (2) acres of land, and that the reason Route 495 was going through "is because of Martin Cerel".

The Board then consulted the Town Counsel concerning the appointing of another and was told by Mr. Howes that the Committee would have to carry on as it is, since these appointments were made at the Annual Town Meeting, by the Townspeople.

The possibility of looking into this matter with St. Mark's School was mentioned. Mr. Mooney brought to the attention of the Board, "eight (8) posts" on the Common Grounds as being in a dangerous position and could easily fall on the children.

Mrs. Madden then asked if her Board could use the services of the Town Counsel relative to asking for the Rules and Regulations concerning Contracts, and that same be put in writing.

VOTED: that the above be granted, that the Town Counsel give Recreation Committee "Brief on Contracts".

Mr. Mooney continued, relative to Rail and Fence Posts around Common, and stated that there was no money set up in their budget to pay for the cost of said posts and rail, that the money would have to come out of something else.

The Committee explained that this would be for "extra labor" and that the Committee has already planned to use "some of the money" for doing over the "basketball court at Peter's Annex", that "it is one of the only places children can go to play".

Mrs. Madden asked if Town Counsel drew up the necessary phrasing concerning Bids? Mr. Howes told her that the Board of Selectmen authorizes the Committee "to put out Bids".

Bleachers at the Harold E. Fay and Mooney Playgrounds discussed. She continued, "I should think working with Planning Board and not consulting us-----" (Clerk did not hear rest of sentence) "you asked us, as a Committee, to see what is needed". Mrs. Madden brought out that "they will not be the ones (meaning the Planning Board) who will be responsible for the maintenance". "There is a lot of destruction".

The Committee brought up the matter concerning the parking of cars, making a hazardous situation since said cars "park on both sides of the street". Mr. Mooney brought out that there was no sign in that area signifying "Playground". Mr. Mooney was also concerned should any child get hurt.

Mr. J. Franklin Millea, being present questioned the right of Mr. Pessini to do any work, since his (Pessini's) not being appointed Highway Superintendent.

Mr. St. Maurice then asked the Town Counsel how long a time can elapse until the Board makes appointments. Mr. Howes answered: "Holds until a successor is qualified". Mr. St. Maurice to Mr. Banks: "Have you a reason for not appointing" (meaning a Superintendent of Streets).

Mr. Banks: "Yes, because the Chairman of the Board is not present". Mr. Banks stated he felt the Chairman should be present when appointments are being made.

The cutting down of trees, by the Highway Department, discussed.

Mr. Banks: "As far as I am concerned, there will be no more trees taken down by the Superintendent of Streets, in this Town, unless there is a hearing on the same". "I feel", stated Mr. Banks, "this has been neglected-I feel I don't want to be responsible for this action".

Mr. Pessini: "Does that refer to these trees on Framingham Road"?--"When the Town widened the Road"?

Mr. Banks stated that he had read Chapter 87, Section 3, and stated he believed that if any one read the same, trees could not be taken down.

Mr. St. Maurice questioned Mr. Banks whether or not he was "conflicting with the Tree Warden", and stated that he was referring to any trees being taken down.

Mr. Millea: Is there any way that I might ask you a question as far as why can't you appoint somebody, and I am referring to the Superintendent of Streets--is there any rule or regulation?

Mr. Banks: "No rule or regulation at all".

Mr. Millea: "What is your reason--is this a matter of convenience?"

Mr. Banks: stated that he wanted to talk to Mr. Pessini.

Mr. Millea: "What are your objections"?

Mr. Banks: "I am not going to state them tonight".

Mr. Millea: "You are holding objections within yourself".

Mr. Banks: "Because I do not feel it is a newspaper's business". Mr. Banks stated he wanted to wait until a full board is present and that "I am going to ask to go into Executive Session".

Mr. Pessini: "I want to know how long I am going to be hung in the air"? "I know what I heard today. This is only a personal thing you have got against me. How would you like it if you were in my place"?

(Here Mr. Banks told Mr. Pessini "we have another appointment at 8:30 P.M.")

Mr. Pessini: "I was told today by Charlie (Mr. Sawin) my appointment was going to be temporary until the first of July and that I would be better off to get another job".

8:30 P.M. Then appeared Mr. and Mrs. William Salmon reminding the Board that their Order which stated certain conditions presently existing on the Binder property, had not been complied with, as of April 1, 1962.

Mr. Howes explained to the Board, that the members would have to determine the "physical facts", that the Board could "hire someone" to investigate the situation and give a report, "you can't, certainly, ignore the thing". Mr. Howes referred to the determining of whether or not Mr. Binder had complied with the Selectmen's Order to remove certain equipment from his property. Mr. Banks stated, "I want to do it the right way". Mrs. Chenard, an abutter who was present asked "Do you think, as I think, the abutters should be there when this meeting takes place?" Mr. Howes: I would think the Selectmen. Mr. William Binder who was also present stated, "Don't want anybody on the property". Mr. Salmon told Mr. Banks that "we feel that you have not, according to your letter, that it has not been lived up to".

It was agreed by both Selectmen Banks and St. Maurice, that an Investigator be hired, and that if he (Binder) is found to be in violation, the Order by the Selectmen would be carried out by April 30th.

8:59 P.M. Then appeared Mr. Daniel Brandano complaining of a "dog kennel", stating that he feels that his business (Motel) can be ruined because of same. Town Counsel explained that in a Business District any one can have a dog kennel, that if the dogs are a nuisance, through barking and causing a disturbance, that he (Brandano) can Petition the Selectmen to abate the nuisance. Mr. Brandano stated that the house on Turnpike Road next to his property "turned out to be a dog kennel". The possibility of this being a health nuisance was also brought out. Mr. Brandano stated that his (believed to be formerly owned by Omer Guilbert) property abuts a Residential Area.

Mr. Brandano then brought up the matter of "brook that runs through our property under Brook Lane is a 12-inch pipe. He continued "any time we get rain, we get it into the yard--actually it isn't (pipe) big enough--comes down from hills into our cellar". Mr. St. Maurice: "Where are they garaged?"

Mr. Zkiab: "They are garaged in Boston".

Mr. St. Maurice: "You are asking us for a License and this is garaged in Boston?"

Mr. Zkiab: "Most of the time, they are garaged in Boston."

Mr. St. Maurice: "Why don't you have those Permits in Boston?"

Mr. Zkiab: "Registered in the Town of Southboro--I pay all excise taxes to the Town of Southboro". (Here Mr. St. Maurice stated he would rather have a Town Counsel ruling)

Mr. Howes: "As far as I am able to determine, we have no provision or by-laws for taxi licenses".

Mr. Banks: "We can issue the License?"

Mr. Zkiab: "they don't object they only want to revise them, so that they are like you have other towns, in other words, when they ask for a taxi permit, it has to have the expiration date".

Meeting, April 10, 1962

Mr. Banks: "As far as I am concerned, if this is what they (State Police) want, you can take those three back".

Mr. Harwood stated that the next two months would be the best time to do the necessary work of levelling the embankment, etc. Chairman Sawin told him that there was no money available, at this time. Said ballots were then given the Selectmen's Clerk, who after examining same, announced that Asadour Topalian had been unanimously elected to fill said vacancy.

8:15 P.M. Then appeared Fire Chief, John W. Boland. Discussion followed relative to the Fire Chief's using, on one occasion, Town Gasoline, in his own car. Chairman Sawin told the Chief that this is what started "a big furor" some time ago and suggested that when the Chief found it necessary to use Gasoline in his own car, while working for the Town in his capacity as Fire Chief, to purchase same elsewhere and "put in slip" so that he could be reimbursed by the Town. (Chairman Sawin had come to the office this afternoon, asking questions of the Clerk, relative to the gasoline situation.)

Chairman St. Maurice then brought up the question of separating those working for the Police Department as well as the Fire Department, and asked Chief Boland if he would give an explanation for his reasoning concerning said separation. Chief Boland stated that there was an occasion when "we had two (2) riding in the cruiser -- when a man is riding in the police cruiser, he can't leave it". Mr. St. Maurice stated that this was not entirely so, that if a man is riding in the police cruiser with another officer, who has not been officially assigned by the Police Chief to the cruiser, and he is a Fireman, his first duty is to the Fire Department.

William Binder, as Assistant to the Deputy Fire Chief, again discussed. Mr. St. Maurice stated he had asked the Fire Chief if he was "adequately staffed" and was told that he (Fire Chief) was, and how did he (Fire Chief) account for an Assistant to the Deputy Chief? Chief Boland stated that at the present time Mr. Binder is not a member of the Fire Department, "he is only a substitute". Mr. St. Maurice questions the right of the Fire Chief to "create an assistant to the Deputy when every other man is an assistant to the Deputy". Chairman Sawin suggested having a general meeting to get the above matter straightened out. Chief Boland stated that when any other officer is appointed, "every man is going to have the right qualifications".

The Board members told Chief Boland that they were under the impression there was a great deal of dissention and unrest in the Fire Department. Letters as received from the National Construction Company relative to the proposed new post office, again discussed. Mr. Borelli had quoted a price of \$5,000 for the extra ten feet, which the Board felt was a "ridiculous price". The Board feels that if the present plan meets with the Town's Zoning Laws, that same be brought to the Planning Board for its approval, but that if same can not be approved by Planning Board, that above Company go to the Board of Appeals.

(It had been brought out that the possibility of a 21% cut in Chapter 90 Construction Funds might be possible). Mr. Pessini stated he was waiting "until I know whether or not we are going to get the money".

Smith, Chairman of Board of Water Commissioners was unable to attend. Mr. C. Ed. Baker, Water Superintendent, was also present.

A lengthy discussion ensued relative to insurance costs of the present (Old) Pumping Station and the New Pumping Station, which has recently been in operation. Various equipment concerning said stations also discussed. Mr. Redmond explained that the Town under Fire Insurance Contract with extended coverage, "you are covered for water damage in connection with general hazards". Mr. Redmond reviewed with the Commissioners, as well as the Selectmen, the reasons behind the increases or decreases in insurance on various Town Buildings. It was brought out that both the old and new pumping stations had \$20,000 of insurance. Mr. Redmond brought out the fact that the old pumping station is made of solid brick, while the new station is "brick-facing with cinder Block". According to the Water Commissioners, they are not using the old pumping station for anything except an office. It is felt that the old pumping station should not be insured for as much as the present new pumping station.

Mr. Redmond told the Commissioners that they ought to carry the \$20,000 now on the old pumping station, "because of the co-insurance clause", and that "when it ceases to be used or kept in operation, let me know".

Chairman Sawin told all present "we need \$167 or \$168.00 (for insurance) The present Insurance Budget is not sufficient to take care of the increases.

8:30 P.M. Members of the Advisory Board were called in, including, Wallace Dunnet, Howard Norcross, newly-appointed members: Louis Bartolini, Ulric Hurley and James O'Donnell. Again Mr. Redmond explained the co-insurance clause.

Mr. O'Donnell told all present it was the feeling of the Committee, that a meeting be held to discuss the possibility of a transfer to the Insurance Account, in the amount of \$167.00+, and that said Committee would let the Selectmen know of its decision. (The Advisory Committee questions whether or not the Insurance Budget had been "overspent".) (A recent appraisal of all Town Buildings had to be made--see Vote of Annual Town Meeting of March, 1962.) Mr. Redmond assured all present that no insurance would be cancelled.

The Water Commissioners also felt that they would like to discuss this matter of insurance among themselves and would give their recommendations relative to the two pumping stations.

9:18 P.M. Then appeared the Industrial Development Commission, including James B. Cookman, Alton B. Spurr and Wilfred Turenne. (The above-mentioned Advisory Committee members also were present). Also Mr. Ralph H. Clark, Assessor. Mr. Moore of the Moore Survey and Mapping Corporation, Shrewsbury, also appeared with the Industrial Development Commission, members.

Chairman Sawin told all present that the main reason for this meeting was due to the fact that the Industrial Development Commission have run out of Town Maps and they, as well as the Assessors feel that some kind of map should be made showing on same Zoning as well as parcels of land, etc., and that money is needed to take care of the costs. Mr. Cookman stated that this particular work is going to cost about \$20,000 and that it would be done in two (2) steps of \$10,000 each. Mr. Moore explained that, at present time, his Company is doing similar work for the City of Marlborough and showed the Boards one sheet "of 18 Sheets" of parcels of land, stating that various parcels are numbered and are to be set up on a card index, for identification. Mr. Moore explained that the first step would be to set up a "base map" and explained the composition of same. Possible ARTICLE to be placed in Town Warrant, at next Annual Town Meeting relative to the above.

Then appeared Messrs. Arnold and Abu, from Ashland, Mass. Mr. Abu's being owner of the Riverside Club in Ashland. He stated that they wanted to erect a sign on private property, between Fantony's and Turnpike Road.

Mr. Howes stated that the Town could make the owners take down such a sign, that the Department of Public Works had nothing to do with the Town's By-Laws. (Zoning)

Mr. Waite then stated, "I have nothing to do with cats". Mr. Waite, however, reported that Mrs. Wright's dog "was not licensed".

8:10 P.M. Then appeared Selectman, Arthur J. St. Maurice.

A short discussion ensued with the Board and the Town Counsel, relative to books as being purchased by the School Study Committee. (A Voucher, as submitted by this Committee had been taken off Treasury Warrant of August 7, 1962).

8:20 P.M. Then appeared Mr. Harold A. Bauld, Chairman of School Study Committee.

Mr. Sawin explained that the Board wanted to get the Town Counsel's opinion on this matter, as it was felt by the Board the purchase of books should be made by the School Committee, and questioned Mr. Bauld out of what Fund was the money being appropriated for said books.

Mr. Bauld: "Regular appropriation to erect and equip the school".

The Board then reviewed with Mr. Bauld matters as discussed on the Town House Floor at Meeting of concerning the vote of six classrooms and a "guidance" room. Mr. Howes told all present that these books are apparently those purchased and placed in small cabinets in each room for reference. Mr. Bauld stated that said books were "reference" books. Mr. Howes felt that said purchase of said books by School Study Committee were legal.

Mr. Wesley N. Wallace, Right-of-Way Sergeant, New England Tel & Tel.

(20 present joint pole locations to be abandoned)

No one appeared at above hearing to object to same.

Notice by Selectmen to abutter, according to Assessors records, was sent to F. W. Roberts, Flagg Road, and returned by Post Office as "address unknown".

VOTED: to grant permission to the New England Telephone and Telegraph Company to lay and maintain underground conduits and manholes, etc., at:

9:10 P.M. Then appeared a group of citizens from Boston Road near the area of the Frank Cameron property is located. Mr. Campana was also present. The citizens group question Mr. Campana's right to use a building for storage which they claim was built after Zoning was in effect. The District is a Residence District.

Mr. Campana told all present that, since he was just notified to come to the meeting, he was "not prepared with anything". Mr. Campana explained that the addition "was the paint room". Mr. Henry Houghton, who was present, stated "not conforming with the Zoning Laws". The Board then reviewed with Mr. Campana, the various Permits granted him to the present time, and reminded him that one permit had been granted with the stipulation that he would convert his Woodworking Shop into a house, and that up to the present time, he has not lived in said house.

9:20 P.M. Mr. Messier, Building Inspector appeared at this time and stated he was under the presumption that the Permit he issued Mr. Campana, was for a building addition to his (Campana's house). Mr. Howes ruled that Mr. Campana is in violation of the Town's Zoning By-Laws, since he has "extended the use" of his business, when he "built that second building". Also, according to the Town Counsel "storage is a business". Mr. Messier stated "I don't think I should give him (Campana) any more Permits, until he is actually living in the place". Mr. Messier, of course, referred to present woodworking shop being made into a house.

VOTED: that Mr. Campana would be notified by the Board and a proper definition would be given relative to the above.

Minutes, August 21, 1962

The Board then discussed an application, as reported by the Building Inspector from Francis Hamel, who stated said application read "storage shed".

Mr. Howes: "What's he (Hamel) going to store in it?"

Mr. Messier: "Going to store guns in it".

Mr. Howes: "I would think if Fran Hamel applied and filed application for a Zoning Permit to build a warehouse for farm purposes, I think he has an absolute right to get it".

At approximately 9:35 P.M. James Cookman, member of the Industrial Development Commission appeared with a Mr. Dooling, Attorney for Downing and Perkins, Inc., for the purpose of discussing a proposed trucking terminal to be located on the south side of the Boston Road adjacent to the MDC property in the Town. The total area to be approximately 3.1 acres: maximum area to be used is approximately 2 acres. Office Personnel to be 6 persons, three of whom will be away from the terminal "90%" of the time. Tentative equipment scheduled to be at terminal:

8 tractors
6 straight trucks
12 trailers.

After a lengthy discussion, the Town Counsel ruled and gave his opinion that the proposed trucking terminal to be located on the south side of Boston Road is an industry and, according to the Zoning laws, could not be erected in this particular area, since it is in a Business District.

The parties present then brought up the matter of the present trucking terminal on the north side of Route 9, in Fayville, known as the Overland Mail Transprotation. Mr. Howes stated that he did not know at the time that a trucking terminal was to be located on the Turnpike in Fayville, but that he had discussed with the Board, the "40-foot right-of-way" that "I never gave an opinion on that" (Mr. Howes referred to giving an opinion on the above-mentioned Overland Truck Terminal). Mr. Ilowes stated that he didn't think that the proposed terminal is a "retail service business or retail service". Mr. Howes also told the Board that he believed this "might involve a law suit". Selectman Banks asked him why. Mr. Howes stated "because of the people up on the hill" that "I have no other reason".

VOTED: that Mr. Curtis B. Dooling, Attorney for Downing and Perkins would be notified of the decision of the Board, at his address at 129 Concord St. , Framingham.

The Board then questioned the right of the Board of Water Commissioners as to whether or not said Commissioners could build an office in the Moth Department and Water Department building in back of the Congregational Church out of the money appropriated for the new pumping station. According to the Town Counsel the office could be located in this building. It was brought out that the M.D.C. would not permit an office being installed in the new pumping station located on Ward Road.

Transfers, from the Advisory Committee, in the amount of \$167.85 to be used for additional insurance premium on town buildings and contents, noted by Board.

VOTED: to amend the Vote of August 7, 1962 concerning insurance and further,

VOTED: that bill, as submitted by Mr. Paul J. Redmond, in the amount of \$1,205.65, in payment of insurance premiums, relative to said Insurance be approved.

The Wills of both Francena Buck and Ruth Harrington discussed.

VOTED: that the Town Counsel look into the above-mentioned Wills, and to see whether or not the money from same (either Miss Buck's or Mrs. Harrington's) part, of which could be used for the Recreation Department.

Report of Chief of Police relative to complaint of Mrs. Patricia Boyle, concerning an alleged violation of Zoning By-Laws, by Mrs. Paul J. Walker, Deerfoot Road, noted tonight.
